

Compact Champions

The role and impact of Compact Champions - A series of six regional workshops

Compact Champions improve the performance of Local Compacts and help achieve better outcomes for individuals and communities. But how do you recruit, train and ensure that your Champions have the necessary skills and approaches to achieve this?

This is a key question for organisations responsible for Compact implementation and Compact Champions, and the Institute of Voluntary Action Research (IVAR)

has examined this question. This series of regional workshops is an opportunity to hear about the findings of this research and good practice looking at how Champions can help your Local Compact work more effectively - whether you are an existing Champion, an organisation considering appointing Champions or an interested Local Compact partner. The workshops also offer an opportunity to air your views on how Champions should be supported in the future.
